

Team: P21389

Engineer: Ben Kemnitzer

What were the outcomes of the prior phase?

1. What did I plan to do?
 - a. I Planned to work with my teammates to come up with concepts to be used in future prototyping, as well as any documentation of all data
2. What did I actually do?
 - a. We generated multiple concepts from the given requirements, as well as further benchmarking of parts.
3. What did I learn? How were plan and reality different?
 - a. Proper documentation of all project data is time consumer, and the best-looking solution isn't always the right one.

Team level goal for next phase

In Phase 3, now that the team has torch bodies from the customer, we can move forward with prototyping the necessary systems.

What do I plan on doing to ensure that my team has a successful review at the end of the next phase?

I plan to complete several tasks within the next week but will mainly focus on prototyping and documentation of any concepts we come up with.

What?	How Long?	When?
Discuss future prototypes	3-4 hours	TBD
Purchase parts for prototyping	1-2 hours	TBD
Simulate and document system	4-5 hours	TBD
Create a detailed BOM	2 hours	TBD
Prepare for review and next phase	8 Hours	TBD

What is standing in my way of meeting my next phase goals?

Personally, there is nothing standing in my way of progression
