**IMPORTANT INFORMATION FOR INSTRUCTORS:**

[How to Complete an Academic Progress Survey Video](#)

Starfish allows the course instructor to easily inform a student that they may be at-risk in specific areas within the course. Advisors assigned to the student also receive notification of the instructors concern. Instructors and advisors can then take a coordinated approach to help students utilize campus resources and develop an action plan.

The progress survey allows an instructor to send alerts related to different aspects of academic performance (attendance/participation, low assignments/tests scores, or multiple concerns). Each topic identified as a concern will generate an automated email that goes directly to the student. We ask that you:

- Check only **ONE** box for the performance area of **greatest** concern
- Indicate in the comment box any specifics about the alert, including your concerns related to the other performance areas.
- Selecting more than one box triggers separate emails to the student for each area of concern, resulting in multiple emails.
- Any time an instructor raises a flag (via progress survey or “Raise Flag”) and includes a comment, the comment is embedded in the standardized email and goes directly to the student.
- All comments and messages are stored in the Starfish system and are disclosable under FERPA.
- In-person training is highly recommended for instructors to understand the system’s additional functionality & communications related to alerts. In the meantime, a user can get a good overview of the system by reviewing the information listed under each of the menu items included on this site.
