

Connecting to Research Computing Systems with Remote Desktop (RDP)

Get access to the Research Computing Cluster, from any Remote Desktop (RDP) client.

Step-by-step guide

To Connect:

1. Open your Remote Desktop Client
 1. On Windows, you may use the built-in "Remote Desktop Connection" (same as "mstsc" from the Windows Run Dialog)
 2. On Mac, we recommend the "[Microsoft Remote Desktop](#)" client
 3. On Linux, we recommend "[Remmina](#)"
2. For the Hostname / Computer Name please enter **ion.main.ad.rit.edu**
3. For the Username and Password, please use your RIT credentials
4. Connect

That's it! If you have any problems, or need help with a specific client, please contact us at rc-help@rit.edu
