

# Email Setup

## Setting up a computer for CIS email

Please follow these links or the links in your left sidebar to find Email Setup documentation for the type of computer you are using.

- [Outlook 2010 CIS Email Setup](#)
- [Apple Mail Email Setup](#)
- [Thunderbird Email Setup](#)

Before setting up your email, please ensure that you have a working internet connection and your computer is updated.

Note: More in-depth tutorials on email setup coming soon.
