## Can I retake the capstone if I fail it the first time? Can the capstone be taken more than once to receive the MicroMasters certificate?

If you do not pass the capstone the first time you take it, you can enroll in a future offering and take it again. However, in order to receive the MicroMasters certificate, you must enroll as a verified student. This means that if you take the capstone twice, you also pay twice. View the [program page](#) for your MicroMasters program for details on the cost.
