How can the Project Management MicroMasters help me in my career/job?

The Project Management MicroMasters is designed to provide you with the knowledge and skills needed to be a successful project manager in any industry. Earning the MicroMasters will showcase your understanding of project management techniques and tools. You will develop the leadership skills needed to effectively manage a team that will meet the expectations of your customers and business goals.

- Project Management skills can be applied to a wide variety of industries and countries
- Project managers have quickly become a necessary asset for many businesses
- The skills learned can apply to many job tasks (i.e. the knowledge of project management helps more than just people with the title of project manager)
- The International Project Management module may be ideal for learning to manage projects in a global environment.

Job outlook statistics can be found on the [Project Management MicroMasters edX page](#).
