

I want to enroll in a different course session than the one I am currently in. The course start date I see on my dashboard is not correct.

I want to enroll in a different course session than the one I am currently in. The course start date I see on my dashboard is not correct.

You may be enrolled in a different session than you intended. Or you may need to just switch to a later offering.

If your course has multiple sessions scheduled and offers the ability to change sessions, you can change sessions by following the [edX's change session instructions](#).

Otherwise, to switch enrollment from one session to a different session, follow these steps:

1. Unenroll from the currently enrolled course on your dashboard by following [edX's unenroll instructions](#).
2. If you paid for your verification in the currently enrolled course and are still in the [refund window](#), it will refund you automatically to the method you paid. Refunds may take 3 to 7 business days to appear on your credit/debit card or PayPal account.
3. Search for the course you want to enroll in on [edx.org](#). Click Enroll to enroll in the new course session.
4. Upgrade/pay for verified in the new course session before the verification upgrade date if you want to receive a certificate.
