

# Passing the Project Management courses

## IMPORTANT

This answer is for the **Project Management** courses only. View the following links for the answer to this question for the other programs:

[Cybersecurity courses](#)[Data Analytics and Visualization in Health Care course](#)[Design Thinking courses](#)[Soft Skills courses](#)[Video Game Design courses](#)

## What do I need to do to pass the course? What is the minimum passing grade for a certificate?

In the **RITX Project Management courses (PM9001x, PM9002x, PM9003x)**, you must complete weekly graded activities (quizzes and assignments) and a timed final exam. You must get a cumulative grade (Total score) of 80% or higher in order to pass the course. You can view your Total score on your Progress Page.

If you want to get a certificate, you must upgrade to verified before the deadline listed on the course Home Page **and** pass the course with a 80% or higher.

## Do I have to get a 80% on each graded activity to pass?

We only look at your cumulative grade (Total score). This means that you can get a lower grade on some quizzes/assignments and a higher score on other quizzes/assignments, as long as your Total score at the end of the course is 80% or higher.

## If I miss or fail a quiz or assignment, can I still pass the course?

Since there are many quizzes and assignments throughout the course, if you miss/fail one or miss/fail a couple of them, each one of them is worth a small percentage of your grade. Collectively, quizzes are worth 20% of your grade and assignments are worth 30% of your grade. You may still be able to pass the course as long as you do well enough on the remaining graded activities to achieve a Total score of 80%. Be sure to submit your graded quizzes and assignments well before the due date to avoid any missed or lost points.

## If I miss or fail the final exam, can I still pass the course?

Since the one final exam is worth 50% of your grade, if you miss the final exam, you will have missed 50% of the available points for the course. It will be impossible to pass with a 80% if you miss 50% of the points. If you have a schedule conflict and you know you cannot complete the final exam, we recommend enrolling in a future offering of the course. If you fail the final exam, it is also unlikely that you will pass the course, unless you only fail by a little bit and did exceptionally well on the remaining graded activities to achieve a Total score of 80%.
