

What happens if I take the audit version of the capstone?

What happens if I take the audit version of the capstone? Should I take the audit version of the capstone?

For all MicroMasters programs, the capstone course is meant for learners completing the MicroMasters program on the verified track. Therefore, the audit version of the capstone does not include access to graded activities. The audit capstone is meant to give you information to make the decision to verify. Each program provides a different audit experience based on the format of the verified version.

CYBERSECURITY

The audit version of the CYBER525x Cybersecurity Capstone will provide you with information about what the lab activities are like if you take the capstone as verified. It includes samples of the instructions and information about time commitment. There is no actual assessment provided for audit learners.

DESIGN THINKING

The audit version of the THINK525x Design Thinking Capstone will provide you with information about what the activities are like if you take the capstone as verified. There is no actual assessment provided for audit learners.

PROJECT MANAGEMENT

The audit version of the PM9004x Project Management Capstone Exam will provide you with an opportunity to try the proctoring software on your computer and information about what the exam is like for verified learners. There is no actual assessment provided for audit learners.
